We have worked with CSA since 2006. They respond to our requests promptly. They are polite. Our inquiries have always received the owner (Todd's) response. We have been really, really satisfied over the years. This is a top notch organization that stands by their service.

Since my normal workday is quite hectic, I normally don't have the time to write reviews but this case call for an exception. We have been working with our nightly cleaning vendor (CSA - Cleaning Specialist America) for the past 8 years and have always enjoyed a very positive service experience. Recently, we had a special event planned for our office and CSA provided additional deep cleaning and detailing to make our space shine for the camera crew. Their level of service is exemplary and total dedication to customer service in most notable. Its an absolute joy working with them! Caren Franklin Office Services Al Roker Productions, Inc.

I've worked with the professionals at CSA for years, and not only do they take enormous pride in their work, they are trustworthy and easy to work with. Their pricing is competitive, and given the quality of the work, an excellent value. Like all business owners, I have many things to worry about. With CSA, they do the worrying, and that's an enormous help to me and my business.

David Oralevic

The team over at CSA is beyond responsible and professional. We had a situation in our office and didn't know who to call. We did a quick Google search, and Todd was there. He and his team were prompt efficient and respected the workplace. Since we first met CSA only a few months ago, we hired CSA to manage our entire facility. Thank you to Todd and Reeny - you guys are great.

Joel Guzman

Cleaning Specialists America (CSA) has been a trusted service provider for over 9 years now and we have always enjoyed a very favorable/open relationship. They are professional, dedicated and highly responsive to all our (and sometimes last minute) service needs. There's no better way to say it other than "it's a pleasure doing business with them." Kudos! Joel Guzman Office Experience Manager CrowdTap/Suzy

I have been using CSA for ten years; our **auto dealer** is a highly trafficked environment. CSA has always been there, especially in emergency situations. ...

Wayne Gregory

It has been a serene pleasure working with C.S.A. for over four years for our two Community Offices in **Brooklyn and Queens**. The level of service is top notch and there is no special cleaning that we need that they can not do. C.S.A

Oliver James

I would highly recommend CLEANING SPECIALIST OF AMERICA for **Office cleaning**. Best service ever

David Hall

Great service. For sure I will recommend you.
